

Dr. Walter A. Pfuntner, P.E.

Dr Pfuntner is a 1986 Graduate of Clarkson University with a PhD in System Engineering. His entire non-academic career has involved the planning for and the operation of the New York State power systems. He was the Lead Architect of the initial Market and Real-time systems for the New York Independent System Operator. He is currently the Manager of Enterprise Architecture and Technology Innovation department at the NYISO. His group has introduced EJB, wireless, portal, EAI, Web Services, blade, Model Driven Integration and Data Warehouse technologies to the NYISO. He is a licensed Professional Engineer in the State of New York and a Senior Member of IEEE.
