

Federal Energy Regulatory Commission

**NORTHEAST ENERGY
INFRASTRUCTURE CONFERENCE**

**Hilton New York
New York, New York**

June 3, 2004

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

NOTICE OF TECHNICAL CONFERENCE AND AGENDA

Northeast Energy Infrastructure Conference
Docket No. AD04-5-000

(May 14, 2004)

As announced in the Notice of Conference issued on April 1, 2004, the Federal Energy Regulatory Commission (FERC) will hold a conference on June 3, 2004, in New York City to discuss issues regarding energy infrastructure in the northeastern states. These states include Maine, Vermont, New Hampshire, New York, Massachusetts, Connecticut, and Rhode Island. The conference will begin at 9:00 a.m. [please note time change] and conclude at approximately 5:00 p.m., and will be held at the Hilton New York, 1335 Avenue of the Americas, New York, NY (1-212-586-7000). All interested persons are invited to attend.

The conference will focus on the adequacy and development of the electric, natural gas and other energy infrastructure in the Northeast. The FERC Commissioners will attend, and Governors, state utility commissioners, and other government officials have been invited to participate. The purpose of this conference is two-fold: to identify the challenges that face the Northeast in ensuring adequate energy supplies to high-growth areas and to coordinate our efforts in seeking solutions. By engaging experts and policymakers in a comprehensive, collaborative approach, we will pool our efforts into achieving a well-functioning infrastructure necessary to meet the Northeast's energy demands.

The conference Agenda is appended to this Notice. As indicated, the purpose of the conference is to discuss regional infrastructure issues among the panelists, and federal and state officials. It is not intended to deal with issues pending in individually docketed cases before the Commission, such as applications involving hydropower, natural gas certificates, or the formation of Regional Transmission Organizations. Therefore, all participants are requested to address the agenda topics and avoid discussing the merits of individual proceedings.

Docket No. AD04-5-000

Opportunities for Listening to and Obtaining Transcripts of the Conference

Transcripts of the conference will be immediately available from Ace Reporting Company (202-347-3700 or 1-800-336-6646) for a fee. They will be available for the public on the Commission's eLibrary system seven calendar days after FERC receives the transcript. Additionally, Capitol Connection offers the opportunity for remote listening of the conference via Real Audio or a Phone Bridge Connection for a fee. Persons interested in making arrangements should contact David Reininger or Julia Morelli at the Capitol Connection (703-993-3100) as soon as possible or visit the Capitol Connection website at <http://www.capitolconnection.org> and click on "FERC."

A reminder to please register for the conference online on the Commission web site at <http://www.ferc.gov/EventCalendar/EventDetails.aspx?ID=896&CalType=%20&Date=6%2f3%2f2004&CalendarID=0>. There is no registration fee.

Attachment: Conference Agenda

AGENDA

- **Gil Quiniones**, Chair, Mayor Bloomberg's New York City Energy Policy Task Force
- **William Flynn**, Chairman, New York State Public Service Commission
- **Eugene McGrath**, Chairman, President and Chief Executive Officer, Consolidated Edison, Inc.
- **Carl Levander**, Vice President, Regulatory and Strategic Initiatives, NiSource Pipeline Group
- **William Museler**, President and Chief Executive Officer, New York ISO
- **Steven Zelkowitz**, President, Energy Assets and Supply Group, KeySpan Corporation
- **Charles Fox**, Deputy Secretary, Energy and the Environment, New York Governor George Pataki
- **Steven Greenwald**, Managing Director, Global Project Finance, Credit Suisse First Boston
- **Frank Cassidy**, President and Chief Operating Officer, PSEG Power LLC

V. Lunch
p.m.

11:45 a.m. to 1:15

VI. New England

1:15 p.m. to 2:45 p.m.

--FERC Staff Introduction and Overview of the Panel Issues

There are gas transmission constraints in New England from all geographic directions, effectively isolating the region and calling for more pipeline capacity or reliance on Liquefied Natural Gas (LNG) import terminals, which often face local opposition. Further, New England has seen considerable construction of gas-fired electric generation without a corresponding addition of electric transmission capacity to get this energy to markets. This panel would address these mounting infrastructure problems and seek to identify what can be done to coordinate efforts for expeditious consideration and construction of much-needed projects.

- **W. Robert Keating**, Commissioner, Massachusetts Department of Telecommunications and Energy
- **Beth Nagusky**, Director of Energy Independence and Security, Governor's Office, State of Maine
- **Paul Vaitkus**, Vice President, Electrical Engineering, NSTAR Electric and Gas Corporation
- **Gordon van Welie**, President and Chief Executive Officer, ISO New England
- **Dennis Welch**, Director, President and Chief Operating Officer, Yankee Energy System, Inc.
- **Richard Grant**, President and Chief Executive Officer, Tractebel LNG North America
- **Linda Kelly**, Commissioner, Connecticut Department of Public Utility Control
- **Robb Turner**, Senior Partner, ArcLight Capital Partners, LLC
- **Steven Corneli**, Director of Regulatory Affairs, NRG Energy, Inc.

VII. Regional Supply and Transport Availability 2:50 p.m. to 4:20 p.m.
--FERC Staff Introduction and Overview of the Panel Issues

Availability of sufficient natural gas supplies to the Northeast appears to be in decline. At the same time, gas transmission capacity from outside the region is also at a premium, especially when considering the amount of gas-fired electric generation. In addition, there are capacity constraints at many points in the region's electric transmission grid (e.g., SW Connecticut). Attempts to provide supply solutions have often been thwarted. This all translates into a supply crunch. Efforts must be made to get new supplies of energy not only into the region, but between subregions.

- **Stephen Whitley**, Senior Vice President and Chief Operating Officer, ISO New England
- **John McCarthy**, Business Leader, Commodities, National Energy Board (NEB), Canada
- **Jeff Scott**, Chief Operating Officer, U.S. Transmission, National Grid
- **Richard Bolbrock**, Vice President - Power Markets, Long Island Power Authority (LIPA)
- **R. Skip Horvath**, President, Natural Gas Supply Association (NGSA)
- **Yves Fillion**, President, Hydro-Québec TransÉnergie
- **Gregory Rizzo**, Group Vice President, Duke Energy Gas Transmission
- **Hal Kvisle**, President and Chief Executive Officer, TransCanada
- **David Boguslawski**, Vice President – Transmission Business, Northeast Utilities

VIII. Discussion by Conference Registrants

4:25 p.m. to 5:00 p.m.

* Closing Remarks *
