

Please note that Validation Rule F.31.01 described below has been temporarily changed from an error message to a warning message to allow additional time to make any necessary updates. A warning message will not prevent the submission of the EQR.

Troubleshooting Validation Rule F.31.01:

If you are receiving the following validation message, please follow the steps below to resolve it:

“Message: F.31.01 Any Seller for a given company must be either an Agent or Account Manager for that company. Please confirm that the Seller contact is an Agent or Account Manager. Reason:

* The Seller Contact ABC@ACME.com is neither an Agent nor an Account Manager for the company.”

Steps to Comply with Validation Rule F.31.01:

The Commission uses the [Company Registration system](#) to identify Sellers and their associated contact persons. The Account Manager should log into their Company Registration account and confirm that the Seller contact is assigned as an Account Manager and/or as an Agent. See pages 16-18 of [Instructions for Company Registration](#) for the Account Manager’s roles and responsibilities.
