NOTICE OF TECHNICAL CONFERENCE

(October 8, 2015)

By order dated September 15, 2015,¹ the Commission directed staff to convene a technical conference regarding PJM Interconnection, L.L.C.'s (PJM) filing, in Docket Nos. ER15-1344-001 and ER15-1344-002, related to cost responsibility assignments for 61 baseline upgrades included in the recent update to the PJM Regional Transmission Expansion Plan (RTEP), and regarding requests for rehearing, submitted in Docket No. ER15-1387-001, related to the PJM Transmission Owners' proposal to change the cost allocation methodology for reliability projects selected in the RTEP solely to address local transmission owner planning criteria. The technical conference will explore issues related to PJM's application of its Order No. 1000-compliant transmission planning process² to local transmission facilities, including, but not limited to, the process PJM and the PJM Transmission Owners use to identify local transmission needs and to solicit proposed solutions to identified local transmission needs (such as opening proposal windows),³ and the process PJM uses to determine whether a transmission solution to an identified local transmission need should be selected in the regional transmission plan for purposes of cost allocation as the more efficient or cost-effective transmission solution.

Take notice that such conference will be held on November 12, 2015, at the Commission's headquarters at 888 First Street NE, Washington, DC 20426 between 10:00am and 4:00pm (Eastern Time) in Hearing Room 7. Additional information regarding
