California Independent System Operator Corporation

Docket No. ER16-1518-000

NOTICE OF TECHNICAL CONFERENCE

(September 12, 2016)

By order issued in this proceeding on June 30, 2016,¹ the Federal Energy Regulatory Commission (Commission) directed its staff to convene a technical conference. The conference will be held on October 28, 2016, at the Commission's offices at 888 First Street, NE, Washington, DC 20426 from 10:00 a.m. to approximately 4:00 p.m. (Eastern Time). The conference will be led by Commission staff.

In the June 30 Order, the Commission accepted in part and rejected in part California Independent System Operator Corporation's (CAISO) proposed revisions intended to enhance functionality and address issues encountered during the first year of EIM operations. The Commission rejected CAISO's proposal to modify its tariff to clarify that implementing economic bidding at EIM external interties requires further development of appropriate market rules and directed its staff to convene a technical conference to gather additional information regarding the technical challenges CAISO described related to the implementation of economic bidding at the EIM external interties.

Further details of the conference will be specified in a subsequent notice. The conference will be transcribed. Transcripts will be available for a fee from Ace Reporting Company (202-347-3700). Advance registration is not required but is encouraged. Attendees may register, indicating attendance in person or via listen-only telephone line, at the following webpage: <https://www.ferc.gov/whats-new/registration/10-28-16-form.asp>. If you require a telephone line, please register no later than October 24, 2016 to be emailed the call-in information one day before the conference. Information on this event will be posted on the Calendar of Events on the Commission's web site, www.ferc.gov, prior to the event.
