Chairman Willie Phillips: Market Monitors Support NAESB Report Recommendations

FERC Chairman Willie Phillips at the October Commission meeting called attention to [a letter from the Market Monitors](#) of all six RTOs and ISOs expressing support for the recommendations in NAESB's gas/electric harmonization reform report, the major feature of which was endorsement of a NERC-like reliability organization for the natural gas industry.

"I welcome the support of all six independent market monitors, not only for NAESB's recommendations but for their encouragement for FERC to, quote, take actions to use the recommendations in the report," Chairman Phillips said at the meeting. "I could not agree more."

FERC Moves to Protect Grid for Transition to Clean Energy Resources

FERC directed new reliability standards to protect the grid as the nation makes the transition to expanded use of clean energy technologies.

“These standards will help us solve one the biggest problems we’re facing, as we make the transition to clean energy resources,” Chairman Phillips said. “We need to make sure that these promising new technologies can enhance, not weaken, reliability of the grid. We mean it when we say that at FERC, reliability is, and remains, Job No. 1.”

These technologies, known as inverter-based resources (IBRs), include solar photovoltaic, wind, fuel cell and battery storage resources and comprise a significant portion of new capacity projected to come online over the next decade.

2024 Commission Meeting Schedule

The Commission has announced its [Open Meeting schedule for 2024](#)

Public Reference Room

The Commission has [revised its regulations](#) to remove references to the physical Public Reference Room at FERC headquarters; the public should use the Commission's FERC.gov website.

FERC Events

- **NOVEMBER 9, 2023 - THURSDAY**
9:00 am - 5:00 pm | [2023 Annual Reliability Technical Conference](#)
- **NOVEMBER 10, 2023 - FRIDAY**
FERC offices closed | [Veterans Day](#)
- **NOVEMBER 16, 2023 - THURSDAY**
10:00 am - 11:00 am | [November 16, 2023 Open Meeting](#)
- **NOVEMBER 23, 2023 - THURSDAY**
FERC offices closed | [Thanksgiving Day](#)
- **DECEMBER 21, 2023 - THURSDAY**
10:00 am - 11:00 am | [December 21, 2023 Open Meeting](#)
