# Reliability Week: FERC Convenes Reliability Technical Conference

FERC's annual Reliability Technical Conference on Nov. 9, 2023, provided a forum for discussion of policy issues related to the reliability and security of the bulk power system and the effect on electric reliability of the Environmental Protection Agency's proposed rule under section 111 of the Clean Air Act.

“When it comes to reliability, my focus as Chairman has been on three key issues: preparing for cyber and physical security threats, extreme weather and the changing resource mix,” Chairman Phillips said in his opening remarks.
