

UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION

Alliance for Tribal Clean Energy

Docket No. RM24-9-000

NOTICE EXTENDING TIME FOR COMMENTS

(September 26, 2024)

On September 3, 2024, the Commission issued a Notice of Petition for Rulemaking and Intent to Hold Tribal Consultation Meetings inviting comment on a petition for rulemaking filed by the Alliance for Tribal Clean Energy to revise the *pro forma* Large Generator Interconnection Procedures to defer the time at which certain tribal energy developers must post commercial readiness deposits and exempt them from potential withdrawal penalties. The Commission established a deadline of November 4, 2024, to file comments with the Commission.

On September 19, 2024, the Commission issued a Notice of Tribal Consultation on the petition for rulemaking. That Notice scheduled two consultation meetings, the first on October 28, 2024, and the second on November 4, 2024.

Given the importance of having the fullest possible record and the dates of the Tribal consultation meetings, the Commission is extending the time to submit comments in this matter by 14 days, to and including 5:00pm Eastern Time on November 18, 2024.

Debbie-Anne A. Reese,  
Acting Secretary
