

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Interconnection of Large Loads to the Interstate
Transmission System

Docket No. RM26-4-000

NOTICE GRANTING EXTENSION OF TIME

(November 7, 2025)

On November 4, 2025, the Organization of MISO States, Inc. filed a motion requesting an extension of time from November 14, 2025, to November 28, 2025, to submit initial comments in response to the Secretary of Energy's proposed advance notice of proposed rulemaking (proposed ANOPR) in this proceeding. The Organization of MISO States argues that, given the technical and legal complexity of the issues raised in this proceeding and the need for coordination among its members, additional time is necessary to ensure that the Organization of MISO States' comments reflect a complete and consensus-based position.¹ The Organization of MISO States asserts that a two-week extension will provide it with time to further evaluate the proposed ANOPR and to provide comprehensive and constructive comments, and will not prejudice any party or unduly delay the proceedings.

New England States Committee on Electricity, PJM Interconnection, L.L.C., and the Organization of PJM States, Inc. filed comments in support of the Organization of MISO States' request for an extension of time.

Given the numerous requests supporting the extension of time and the importance of the issues raised by the proposed ANOPR, upon consideration, notice is hereby given that the date for submitting initial comments on the proposed ANOPR is hereby extended to and including November 21, 2025, with reply comments due on or before December 5, 2025.

Debbie-Anne A. Reese,
Secretary.

¹ Motion for an Extension of Time at 2.
